Team Leader: Wai Chun, Kwan (Daniel)

Front End Designer: Wai Chun, Kwan (Daniel)

Front End Developer:Chun Fung, To (Alan)

User Experience Developer: Ping Wang

Description

Good HOPE Bakery Dessert Workshop Website is proposed to be a dynamic website for dessert shop in which provide dessert products, workshops and relevant books sales. This site will provide easy and instant information to the dessert lover as per modules. Various functionalities like product booking, dessert workshop information, book recommendation, etc. would be seen by the customers on the site. The site will have the attractive, modern, bright and simple Front end for the Visitors. The site will include seven pages: Home page, Product Gallery page, product gallery page, Workshop, Book Page and About Us. Product Gallery page and Workshop pages will provide submit form and purchase function for users who want to order products.

The Users will be the customer who is dessert lover. The Following features will be provided for them.

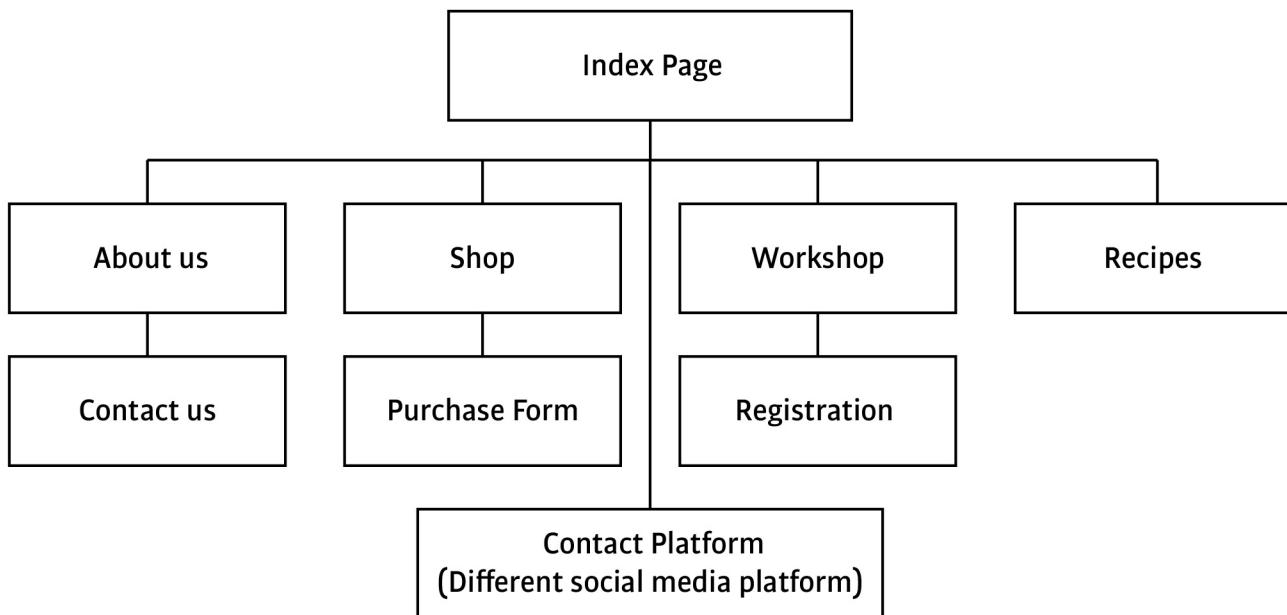

Style:

We choose to use milder styles and mild colors to make customers feel like visiting a bakery when they browse the web. We also choose some simpler fonts to make it easier and more comfortable for customers to read. In addition, we have added night mode to the web page to give users more choices. On the homepage, we decided to enlarge the logo to attract customers and highlight our brand.

Good HOPE Bakery Style Guide

Shop page

Website Version

Mobile Version

The wireframe shows two versions of the Shop page. Both feature a header with a logo, navigation links for About, Shop, Workshop, and Recipes, and social media icons. The main content area displays a grid of four items, each with a placeholder photo, price (\$ XXX), and ID (XXXXXX). To the right is a sidebar for purchasing, containing dropdown menus for quantity (labeled ITEM 1 through ITEM 7) and a total price summary (\$ XXXXX). A 'Check out' button is at the bottom of the sidebar. The mobile version is a compacted version of the website version.

Workshop page

Website Version

Mobile Version

The wireframe shows two versions of the Workshop page. Both feature a header with a logo, navigation links for About, Shop, Workshop, and Recipes, and social media icons. The main content area displays a grid of four items, each with a placeholder photo and a detailed description consisting of multiple 'XXXXXX' placeholder lines. Below the grid is a schedule showing days from Sunday to Saturday. To the right is a sidebar for applying, containing a 'Register now' button and a 'Content' section. The mobile version is a compacted version of the website version.

Good HOPE Bakery Style Guide

Workshop application page

Website Version

Mobile Version

The image displays two wireframes for a 'Workshop Registration Form' side-by-side. Both versions feature a header with a logo and navigation links for 'About', 'Shop', 'Workshop', and 'Recipes'. The left version, labeled 'Website Version', has a 'Form' callout pointing to the registration fields. The right version, labeled 'Mobile Version', has a 'Mobile Version' callout pointing to the form fields. Both forms include fields for Name*, Phone*, Email*, Select a Workshop, Number of Participation, and Select Start Date, followed by a 'Submit' button. A decorative footer section at the bottom contains five circular icons.

Recipes page

Website Version

Mobile Version

The image displays two wireframes for a 'Recipes' page side-by-side. Both versions feature a header with a logo and navigation links for 'About', 'Shop', 'Workshop', and 'Recipes'. The left version, labeled 'Website Version', has a 'Photo' callout pointing to a large image placeholder, a 'Content' callout pointing to a list of steps (1.XXXXXXX and 2.XXXXXXX), and an 'Ingredients' callout pointing to a table placeholder. The right version, labeled 'Mobile Version', has a 'Mobile Version' callout pointing to the same content elements. Both pages show a large image placeholder at the bottom. A decorative footer section at the bottom contains five circular icons.
